PROFESSIONAL EXPERIENCE

Leap Event Technology – *Front-End Developer* (2022 – Present)

- Saved customers & implementation managers time and costs by implementing **Live Preview**, enabling real-time mobile app previews and eliminating 30+ min rebuilds.
- Boosted code maintainability and scalability by eliminating formatting inconsistencies and increasing test coverage to **80%**.
- Led **technical evaluations and interviews** for intern candidates.

Canada Drives – *Front-End Engineer* (2020 – 2022)

- Increased website traffic **by 21%** in June 2022 through SEO improvements, including metadata and canonical URL optimizations.
- Deployed an **average of three new features per sprint** since March 2022.
- Facilitated and directed **daily stand-up meetings** to align development teams.
